

REU 2023 KICKOFF MEETING AGENDA

Welcome

Objectives of the REU program

Self-introductions:

REU students

REU mentors and heliophysics group members

Room assignments; Barnard #230 (aka Physics Learning Center)

Travel Arrangements – how to get reimbursed.

Stipend – when you get paid, and how.

Medical consent and Insurance card, allergies and special conditions shall be reported to us if haven't done so.

How to get your Cat Card (your MSU ID for the summer)

How to get Gym and Library access.

REU Calendar (review the web page)

- keep up to date on lecture schedules and weekend activities
- regarding the NSF required training, plan for at least 2 hrs to finish the training, but it does not have to be done at one go; at any point, save the session and can continue next time. Please complete the online training within the first week.

Residence hall matters

- there should be a fridge in each room;
- shared kitchen – some utensils are provided by Physics, if you need more utensils, list those and tell us. These should be returned at the end of the summer.

First day check list (review)
